

For forty years, Tadd Spring has been supplying high precision round steel wire compression and torsion springs for the automotive, aeronautical, appliance, electrical industries - to name just a few.

> History of Quality

At present we are ISO/TS 16949 certified. This allows us to conduct business with the major automotive companies as well as Tier 2 suppliers for the automotive industry.

Tadd is a full service supplier supporting RAPID Prototype on Production Equipment as well as very short lead times to full production.

“The Tadd Spring Company is committed to meeting all requirements and continually improving the quality of its system, processes and products to better satisfy the needs and expectations of its customers; and to deliver to them, on time and every time, defect-free products.”

— Tadd Spring Quality Policy

> Equipment & Processes

Tadd manufactures spring and wire components for wire ranges of 0.006” to 0.112”. All secondary operations are completed in house include the following:

- Grinding
- Stress Relief
- Paint
- Passivation
- Shot Peen
- Custom Specifics for Automation
- Statistical Data Control & Data Collection
- Special Packaging
- Tack Board
- Tray Pack
- Cell Pack
- Spring Design Verification

We are experienced in running many types of material - from Music Wire to Valve Quality Chrome Silicone.

- Automatic sorting 100% inspection off the machine. Capable of holding +/- 0.001” +/- 1 gram on test load.
- Carlson Spring Testers with capabilities up to 200 lbs or as low as 0 - 200 grams.
- Automatic Grinders capable of grinding 12,000 - 15,000 springs per hour.

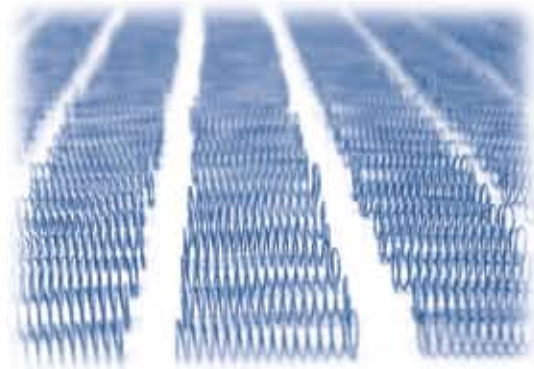

Tadd Spring supplies high precision round steel wire compression & torsion springs for the automotive, aeronautical, appliance and electrical industries, among many others.

Compression Spring **SPECIALISTS**

Tadd Spring Company is located in Strongsville, Ohio and was established in 1963. We specialize in fine compression and valve springs and ship approximately 9 to 15 million springs per month.
